

TWISTER

II PORTAGOMMA ROTANTE - TWISTER

consente ai tubi in gomma di seguire i movimenti degli accessori della macchina, adattandosi senza sforzi ed evitando torsioni e strozzature.

THE ROTARY HOSE FITTING - TWISTER

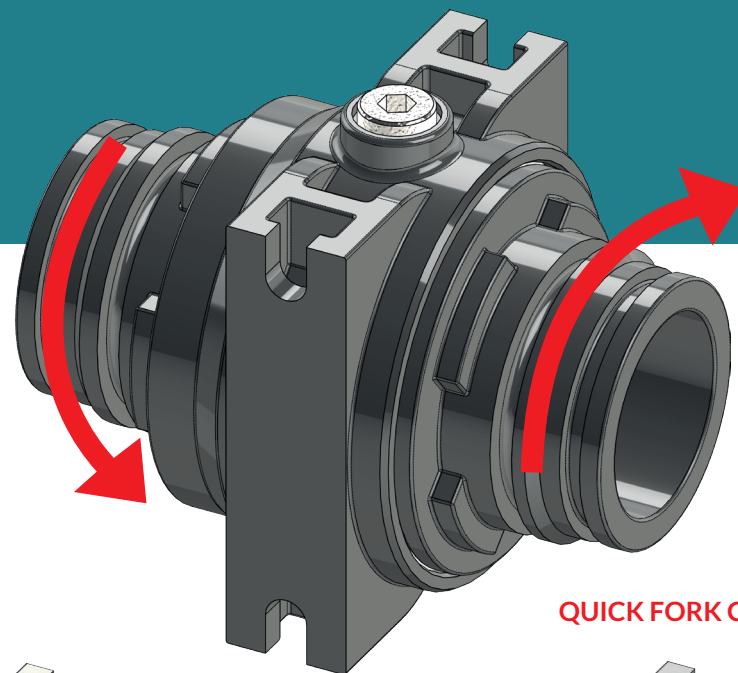

Allows the rubber hoses to follow the movements of the accessories of the machine, adapting without efforts and avoiding twisting and bottlenecks.

DER DREHEBARE SCHLAUCHHALTER - TWISTER

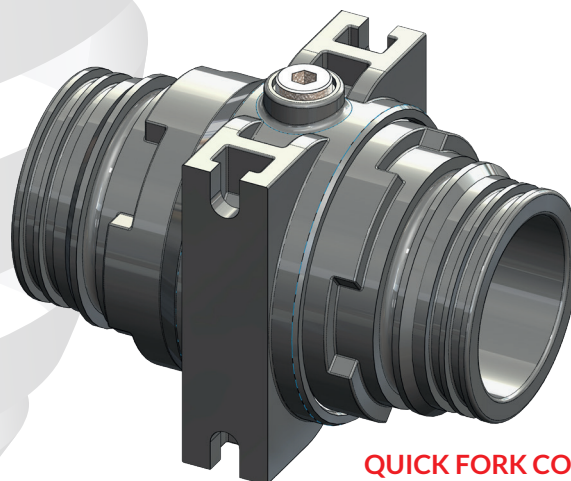

ermöglicht es Gummischläuchen, des Maschinenzubehörs zu folgen, sich mühelos anzupassen und Verdrehungen und Engpässe zu vermeiden.

RACCORD PIVOTANT - TWISTER

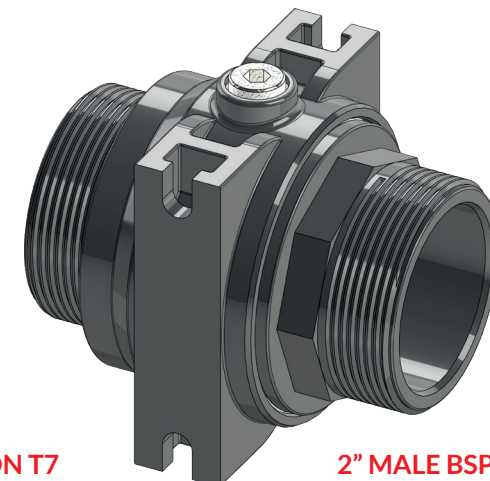

Il permette aux tubes en caoutchouc de suivre les mouvements des accessoires de la machine, s'adaptant sans efforts et évitant les torsions et les goullets d'étranglements.
